

According to the global [Distributed Antenna Systems Market](#) report published by Value Market Research, the market is expected to touch USD XX.X MN by 2025, with a CAGR of X.X% growing from valued USD XX.X MN (by revenue) in 2018. This is a tailored made research service providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The report also covers detailed competitive landscape including company profiles of key players operating in the global market. The key players in the distributed antenna systems market include Boingo Wireless Inc, Cobham Plc (Cobham Wireless), Comba Telecom Systems Holding, CommScope Inc., Comtech Telecommunications Corp., Corning Inc., Crown Castle International Corporation, Dali Wireless Inc., TE Connectivity Ltd. and Westell Technologies Inc. An in-depth view of the competitive outlook includes future capacities, key mergers & acquisitions, financial overview, partnerships, collaborations, new product launches, new product developments and other developments with information in terms of H.Q.

Market Dynamics

The increasing demand for wireless connectivity along with the popularity of mobile phones across the globe is driving the demand for distributed antenna systems. Also, increasing demand for in-building connectivity is further accelerating market growth. In addition, rising need for public safety communications are contributing to large scale adoption of DAS is again boosting the market growth. Furthermore, rising demand for DAS in various end-use industries to provide enhanced and uninterrupted internet connectivity across the world is expected to affect the market growth positively in the forecast period. On the flip side, high initial cost and upgrade issues associated with distributed antenna systems is projected to restrain the market growth.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of distributed antenna systems.

Market Segmentation

The broad distributed antenna systems market has been sub-grouped into technology, ownership and application. The report studies these subsets with respect to the geographical segmentation. The

strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Technology

- Active DAS
- Hybrid DAS
- Passive DAS

By Ownership

- Carrier Ownership
- Neutral-Host Ownership
- Enterprise Ownership

By Application

- Public Venues & Safety
- Hospitality
- Airport & Transportation
- Healthcare
- Education Sector & Corporate Offices
- Industrial
- Other

Regional Analysis

Furthermore, the report comprises of the geographical segmentation which mainly focuses on current and forecast demand for distributed antenna systems in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
